Why Choose this Training Course?

This course features how to establish, implement, manage and continually improve your facility department to get the best out of your facilities within the given boundaries of costs, performance and other important factors during its total lifetime.

This interesting course is designed to develop delegate's skills in managing facility staff and corporate assets while minimizing risk exposure in the workplace. As the Facilities Management (FM) function continues to evolve, this course offers the latest thinking in the profession, right balance between asset performance (functionality, availability, reliability, safety), and will tackle specific issues encountered on the ground and apply best practices in discussing real solutions.

This course will feature:

- Proper knowledge of the basis principles of facilities management
- How to apply best practices according to several norms
- Understanding how to operate and maintain facilities as a “business within a business”
- Sharing of facilities management experience
- Insights regarding current state of facilities management processes and possibilities to improve them

What are the Goals?

By the end of this course, participants will be able to:

- Understand the basics of facilities management
- Understand how to draw up a preventive maintenance concept, based on risk
- Develop strategies to decide when and what to outsource
- Understand the different contract types
- Identify and monitor the facilities management-processes performance

Who is this Training Course for?

This course is suitable to a wide range of professionals but will greatly benefit:

- Professionals who are responsible for the management, operation and maintenance of facilities (buildings, production facilities, utilities, power and water distributions networks landscaping, etc.)
- Professionals aiming to update themselves on the basic elements, best practices and implementation aspects of facilities management.

How will this Training Course be Presented?

This course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes use of PP presentation slides, exercises and group discussion.

The course is highly interactive and will prompt delegates to reflect on current practices and on their team goals. The tutor will guide and facilitate learning using a wide variety of methods including direct input, discussions, case studies and pair and group work.
