

## Essential Skills for Oil and Gas Professionals

Date		(\$)Fees	
20 April -24 April 2025	Dubai	3200	<a href="#">Register Now</a>

### Why Choose this Training Course?

The Oil & Gas industry is undergoing the most significant changes that we have seen for two decades as a result of an increase in oil production and a simultaneous decrease in demand. Sustained low oil prices are changing the geopolitical landscape of the oil and gas business. The shale oil and gas revolution has resulted in the need for new business models, with many mergers in the international oil companies both upstream and downstream of the oil and gas supply chain. With the international demand for petroleum products reaching record levels, so too is the complexity of issues facing the Oil & Gas industry.

This seminar provides the essential skills to build a proactive knowledge base of the oil and gas industry, as well as the necessary competencies to meet the challenges it faces.

### What are the Goals?

**By the end of this course, participants will be able to:**

- Build knowledge as to the nature and challenges facing the oil and gas industry
- Understand the key players and commercial drivers
- Examine the industry structure with specific emphasis on the complete value chain
- Understand framing agreements including joint ventures and product sharing contracts
- Examine the importance of effective project planning and execution including risk management and Earned value management analysis

### Who is this Training Course for?

**This course is suitable to a wide range of professionals but will greatly benefit:**

- Oil and Gas professionals:
  - Senior and middle managers
  - Accountants and finance professionals responsible for financial accounting, treasury, internal audit, budget preparation and management reporting
  - HR, contracting and procurement and IT professionals
  - Line managers with strategic planning and operational budgeting responsibility
- New entrants to the Oil & Gas industry
- Professional advisers and Business Consultants

## **How will this Training Course be Presented?**

This workshop will be highly participatory and your seminar leader will present, guide and facilitate learning, using a range of methods including discussions, case studies and where appropriate, these will include real case examples. The course will be concluded with a capstone exercise.

By combining analysis, problems and examples with real case studies - lessons learned from the seminar will be applied to your organisation. Key performance indicators (KPIs) for the critical success factors (CSFs) will focus attention on high priority action plans for taking back to your organisation.

## **The Course Content**
